Professional Summary

Detail-oriented Computer Science undergraduate (B.Tech CSE, 2026) with a strong foundation in Data Structures & Algorithms (C++) and Full Stack Web Development. Winner of IBM Technovate 3.0 with proven experience building deployed MERN stack applications. Seeking a software engineering role to leverage skills in React.js, Node.js, and scalable architecture.

Education

B.Tech in Computer Science & Engineering — **Expected 2026**
Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore — *CGPA: 8.10*

Class XII (CBSE) — **2022**
Kautilya Education Academy, Shajapur — *82%*

Class X (CBSE) — **2020**
Dinah Convent School, Tarana — *68%*

Technical Skills

- **Languages:** C, C++ (Strong OOP & DSA), JavaScript (ES6+)
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Socket.io
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Postman, Vercel, Render

Experience

Web Development Intern (Virtual) — **July 2025**
IBM (PBEL Scheme)

- Architected and developed a full-stack E-commerce application as part of the Project-Based Experiential Learning scheme.
- Implemented end-to-end functionality utilizing the MERN stack (MongoDB, Express.js, React, Node.js).
- Managed database connections and RESTful API integration for dynamic data handling.

Key Projects

1. MilkMate - Dairy Management System — *MERN* — **Live Demo** | **View Code**

- **Winner, Technovate 3.0:** Recognized for innovation at IBM Day 2025.
- Developed a role-based web app for dairies and milkmen; implemented secure login and real-time order tracking.
- Developed a full-stack marketplace platform enabling local artisans to sell products directly to consumers.

2. Artisan Bazaar - Local Marketplace — *MERN Stack & Socket.io* — **Live Demo** | **View Code**

- Developed a full-stack marketplace platform enabling local artisans to sell products directly to consumers.
- Integrated secure payment gateways Stripe to handle real-time transactions.
- Built a real-time chat interface using Socket.io to facilitate seamless buyer-seller communication.

3. Airline Reservation System — *C++*

- Developed a console-based application to automate flight bookings, cancellations, and passenger records.
- Implemented file handling for persistent data storage and dynamic fare calculation algorithms.
- Demonstrated strong grasp of Object-Oriented Programming (OOP) concepts in a functional utility tool.

Achievements & Certifications

- **Winner:** Project Presentation - Technovate 3.0 (IBM Day 2025) for 'MilkMate'.
- **Finalist:** IBM Pan-India Hackathon 2025 (Bangalore).
- **Certified:** Full Stack Web Development (Apna College).
- **Certified:** Data Structures & Algorithms in C++ (Apna College).
